MARYVILLE MOTOR CO. INCORPORATES

CONSOLIDATES WITH DISS AND IRBY GARAGE.

TERRITORY IS ENLARGED

New Firm Will Have Dodge Agency in Nodaway and Atchison Counties—Move July 1.

Applying for incorporation papers with the stockholders as Dick Strong, George P. Sellers, Fred Diss and James Irby, the Maryville Motor Co. is being consolidated this week with the Diss and Irby garage, the new firm to continue under the former name.

The Dodge cars and equipment of what was the old Maryville Motor Co. will be moved from the Martin Building on South Main Street to the building occupied by the garage, one-half block south of the Post Office. The consolidation becomes effective July 1.

The company will handle exclusively Dodge Brothers cars. In addition to having the agency for Nodaway county they will also have Atchison County, which was formerly in the territory of the Farmers' Auto Co., of St. Joseph.

The garage is now being remodeled and will be sales and service headquarters for the two counties for Dodge Brothers' Automobiles. A show room will be provided in the new garage.

Mr. Diss will be the secretary and treasurer of the new company. Mr. Irby will have charge of the service department, while Mr. Strong will have the Nodaway County sales and Mr. Sellers the Atchison County sales.

The Brumbaugh Battery and Electric Service will occupy the room vacated by the Maryville Motor Co., in the Martin building. They have been located in the Kane building.

A reduction has been made in the price of Dodge Brothers cars, and it is announced that hereafter all their cars will be equipped with cord tires.

First Letter to Reach Here Tells of Pueblo's Devastation

The first letter from flood-devastated Pueblo reached Maryville today. It was a short note to Mrs. W. O. Garrett from her brother, M. T. Foster, who is one of the water commissioners of the flooded city. The letter was written Monday afternoon. It was evidently written hurriedly, but is a graphic description of conditions as they existed at the time the note was written. It follows:

"We are all O. K. personally, but an indescribable calamity has washed away and flooded our city. We are under military control but aid of all descriptions is coming to us from every direction. Have only one inlet by railroad from just one direction, others being washed out. Trucks are coming overland with supplies from surrounding towns.

"No light, gas, phone, telegraph, water supply limited, but will soon have our water plants in order. River cut through lowland leaving our dam dry. This dam is our source of water supply.

"I cannot describe the destruction to our city, buildings washed away and those left standing are absolutely flooded out, fixtures and contents. It extended through most of the principal business district. Just cleaning the streets today. Hundred of lives lost and probably $10,000,000 damage; cannot estimate either to any certainty.

"Will write you later, as we are in a terrible turmoil but want you to know we are alive and O. K."

COLUMBIA WANTS NEXT AMERICAN LEGION MEET

Asks James Edward Gray Post for Support at St. Joseph Convention in September.

The Herbert William Post, No. 202, of the American Legion of Columbia, Mo., is sending out letters and other material to the various posts in the state, to win the 1922 state convention for Columbia. The question of the meeting place will be decided at the 1921 convention to be held in St. Joseph in September.

John G. Mutz, adjutant of the James Edward Gray Post, No. 100, of Maryville, is in receipt of a letter from the Herbert Williams Post asking Maryville to indorse Columbia for the 1922 convention. In return for its support the letter states, "the Herbert Williams Post No. 202 will make every effort to provide entertainment for the delegates and visitors far exceeding their fondest hopes on the occasion of the state convention in Columbia." A booklet telling of a number of logical reasons why the convention should be held in Columbia, has been published by the Columbia post.

U. S. GRAIN GROWERS, INC., TO WAR ON SPECULATORS

George Roberts, of Omaha "Corn King", Said to Have Cleaned Up $500,000 Last Week.

Chicago, June 9.—Plans for floating the hundred million dollars stock issue of the New United States Grain Growers, Inc., a farmers' co-operative organization were made here today by the executive board.

The board, through President Gustafson, declared it would wage war against the heavy grain speculators, naming George Roberts of Omaha, "Corn King", as an example. Gustafson denied there would be compulsory pooling of products but declared that co-operative elevators would be established at terminal points.

Roberts is alleged to have cleaned up half a million dollars on May wheat last week and also to have profited to the extent of million dollars in grain speculations during the war.

Sensitive Lad Hangs Self.

Oakland, Cal., June 9.—Harry Finkelstein, thirteen, batted his ball over a neighbor's fence. She scolded him and his father punished him. He retired to the basement of his home and hung himself.

The Homemakers class of the Buchanan Street Methodist church will meet Saturday afternoon at the Tea Room. Mrs. Claude Williams and Mrs. J. H. Thorp will be the hostesses.

TAXES WILL BE 15 PER CENT GREATER

WITH ALL LEVIES MADE, APPROXIMATE INCREASE IS SHOWN

STATE TO GET THE MOST

Its Increase is $39,000; the County's Increase about $16,000—and Schools are Next

TAX LEVIES	1920	1921
State	$ .18	$ .146
County	.75	.35
School	1.85	1.09
City	1.30	.775

VALUATIONS	1920	1921
County	$27,166,413	$62,817,832
School District	2,828,119	5,569,563
City	2,673,196	5,172,631

TAX REVENUES (ESTIMATED)	1920	1921
State	$ 52,320	$ 91,714
County	203,748	219,852
School (Maryville)	48,320	55,695
City	34,751	40,087

The people of Maryville and Nodaway county will pay about 15 per cent more in property taxes this year to the state, county, schools and city than last year, according to an estimate made today. License, income and special taxes that are to be collected are not included in this amount. It will probably mean $70,000 more money to collect.

All of the levies have now ben made by the state, county, Maryville school district and the city of Maryville.

The biggest increase is the state tax, which will obtain about $39,000 more than last year. Next in amount of increase is the county which expects to have about $16,000 more in taxes this year than last fall.

The levy for the Maryville school district this year is $1, while it was $1.85 last year. The reduction was made this year because of the increase in valuation and of paying off of nearly all of the original school bond isue. The $1 levy will produce about $8,000 or $9,000 more than last year.

The city of Maryville will receive about $5,000 more in taxes than it did a year ago.

The special session of the legislature to be convened soon probably will be asked to reduce the state tax of 1 cent on each of these funds-the general revenue, capitol bonds and the blind pension.

No exact estimate of taxes can be made here as this county has township organization and school ristricts have diferent valuations and levies.

FARM REFERENDUM REPLIES COMING IN

COUNTY AGENT HAS RECEIVED A HUNDRED REPLIES.

TO COUNT VOTES MONDAY

Expression of Farmers Will Influence Fate of Legislation Pending in Congress.

Answers to the questionnaires sent out to farmers of the county by the Nodaway County Farm Bureau last week are being received in every mail by R. A. Kinnaird, county farm agent. More than a hundred have already been filed at the Farm Bureau offices, but no attempt has been made to tabulate the farmers' views. The count of the votes on the sixteen propositions will be made Monday, when it is hoped most of the answers will be in.

On the answers of farmers in Nodaway and other counties depends the fate of legislation now pending or soon to be introduced in Congress. The result of the vote is expected to have a large influence upon the votes of members of the House of Representatives and the Senate.

Farmers in all sections of Missouri are recording their votes this week on sixteen questions on national legislation all of which directly affect the man on the farm. The results of the nation-wide referendum, which is being conducted in this state by the Missouri Farm Bureau Federation, are to be compiled and laid before Congress. The result of the votes of Missouri farmers will be announced through the press of the state as quickly as the ballots can be counted.

There is considerable rivalry in the state between the several farm bureaus on this project. A number are attempting to register a 100 per cent vote and others are in a race for first honors in reporting on time. Cooper county, the newest Farm Bureau county, was first under the wire with a vote, the referendum being submitted at the meeting at which the Bureau was organized Saturday, May 28.

The questionnaire to the county farm bureaus is accompanied by a copy of the National Legislature Policy of the American Farm Bureau Federation, as adopted by the Executive Committee at the Washington conference with representatives of the state farm bureau federation. County farm bureau leaders will call district, township and county meetings of the entire membership, lead the discussions on the policies involved, and submit the program to a referendum vote. A poll will be taken and the tally made on the official referendum sheet of the American Farm Bureau Federation.

The completed questionniares are to be returned to the American Farm Bureau Federation's offices by June 15.

READERS DEMAND FICTION AT FREE PUBLIC LIBRARY

Both Adults and Children Pass Up "Literature" and Philosophy" for Lighter Reading.

Fiction remained the overwhelming choice of renders at the Maryville Free Public Library during the month of May, according to the report of Miss Grace Langan, librarian. Of 897 books loaned to older readers, 820 fell in that class, while 366 of the 404 books loaned to children were fiction.

The older readers' taste are shown in the report as follows: fiction 820, biography 9, bound magazines 4, philosophy 4, religion 4, sociology 4, natural science 4, useful arts 9 fine arts 1, literature 26 and history 12. Ninety-one magazines were loaned.

The total number of books and magazines loaned was 1,392, and the average per day was 56. Cards were issued to 25 new readers. The total number of readers was 1,615, or 54 each day. There were 875 in the periodical room, 390 in the children's section, 264 in the reference room and 146 Sunday readers. Collection amounted to $20.22 for the month.

COLLEGE MIXED DOUBLES TOURNAMENT STARTS TODAY

The School's Fastest Players are Entered in First of Summer Tennis Events.

The first round of the mixed doubles tennis tournament will be played off today at the college. There are six teams entered and the pick of the tennis players of the college will compete. This is the first of a series of tournaments which are to be held this summer.

In the first match of the first round Paul Pickens and Ruth Miller will meet Charles Wells and Ellen Mitchell. In the second match William Mapel and Ora May Condon will play against Lola Cromer and Earl Duncan, and in the third match Paul Miller and Wave Hulet will meet Earl Bland and Helen Miller.

The best players of the college are entered in this tournament. Earl Bland was champion of the College last summer. Wave Hulet was girls' champion this spring. Ruth Miller was Maryville high school champion for two years. Mapel and Ora May Condon were the mixed doubles winners this spring, and Ellen Mitchell was one of the winners in the first tournament this year. The matches will all be hotly contested, as the players are about evenly divided.

Miss Mary MacLeod of the physical education department has charge of the tournament and predicts that it will be the fastest one ever played on the college courts.

Earl Nichols of New Hampton, former student of the State Teachers' College, and V. A. Carter of New Hampton were in town yesterday.

Treemont Lyle and son, Marion, from Parnell were in town yesterday.

BERG'S ANGUS HERD GETS A WRITE-UP IN PAPER

Feeds Pure Bred Steers and It Pays—Feeders are Grown on Farm That Produces the Feed.

The Weekly Kansas City Star had the following in this week's issue about the pure bred Angus of William Berg of Maryville:

William Berg has purebred Angus cows, purebred Angus bulls and so of course, grows purebred calves. There are 116 of the cows and not a spoiled udder in the lot. They never have been milked. Berg keeps them to grow calves which he feeds out for market.

Does it pay to feed purebreds? Mr. Berg has been doing it eighteen years and has never fed out a lot that lost him money, he says. That isn't all. His farm, near Parnell, will grow twice as much grain as when he bought it.

Mr. Berg grows his cattle and everything he feeds them. He tries to produce the highest priced meat on the market. His cattle usually are on the way to Chicago Thanksgiving day. They are sold as yearlings and he figures on making them weigh around 1,000.

Profits by Avoiding Expense.

"Too many feeders lost their profits in shrinkage," Mr. Berg says. "Cattle bought at the markets lose from 75 to 150 pounds each before they arrive at the feeders' pens or pastures. Then there are expensive transportation charges.

"When he ships them back as fat cattle there is another shrinkage and another set of transportation expenses. There is the handicap that often spells the difference between profit and loss. If the feeder has to buy corn that also eats into the return from the cattle. He doesn't know what kind of cattle he is feeding nor what he can make them do."

The cows on the Berg farm get no grain. They live on roughness and are kept until they are 10 years old. Meantime the better heifers are added to the herd and the old cows culled.

Forty head of hogs to the carload of steers are kept in the feeding pen.

April and May calves are the rule. The calves are separated from the cows in February. They get plenty of corn until grass comes. Then the corn ration is reduced to one feed a day. When the new corn is in hard roasting ear the grain feed is increased gradually, old corn being mixed with the new in equal parts until they again are on full feed.

The corn is sliced in the ear for the cattle and it produces the most gain when it is in the denting process, according to the Berg theory. The longer the calves are consuming their feed the more good they get from it, Berg says.

Last fall, when the only reports of the cattle industry heard were those of the financial collapse of this feeder or that, the Berg beeves brought from $15.50 to $16.50 and, Mr. Berg himself admits, "made me some money."

"I studied the cattle before I decided on the breed I would use," Mr. Berg said. "I picked the Angus. I have not been sorry. I know my cattle. I know how and what to feed to get what I wish to produce. My farm yields twice as much as it did when I bought it. Meanwhile the grain growers who sell their crops have hauled away a large part of the precious elements in their soil.

"Sure it pays to feed purebreds. Get the right kind, feed them properly and market them at the right time, on a market where you know they like the type you produce. It will make money."

Mother Shipton was a reputed English prophetess who lived during the time of Henry VIII.

POLAND-CHINA MEN WANT ASSOCIATION

W. O. GARRETT ISSUES CALL FOR MEETING SATURDAY.

TO HOLD JOINT SALES

Live County Organization Would Do Much to Advance Interests of Breed, Says Garrett.

Poland-China hog breeders will perfect a county organization at a meeting to be held at 3 o'clock Saturday afternoon at the office of the Nodaway County Farm Bureau. The call for the meeting has been issued by W. O. Garrett, director and western representative of the Poland-China breed promotion committee.

The proposed organization will be similar to that of shorthorn breeders completed recently. These organizations are being made in many counties throughout this section of the country and are proving to be of great value to those interested in the promotion of the breed.

Nodaway County has many purebred Poland-China herds, but some of them are not large enough to justify holding their own sale One of the objects of the proposed county organization will be to hold joint sales to which small breeders may consign the animals they wish to sell. Other work will be undertaken to advance the interests of the breed and to extend the number of herds in the county.

A partial list of the Poland-China breeders of the county is as follows: T. H. Acklin, Graham; J. H. Alexander & son, Pickering; T. E. Archer & Sons, Conception Jct.; Auer Bros., Conception Jct.; James Bagby, Skidmore; R. R. Banner, Burlington Jct.; Alonzo A. Barber, Graham; Edison Blagg, Maryville; J. M. Women for Harvest Hands.

Wichita, Kan., June 9.—Men, watch out that the women don't show you up in the harvest fields this year. The local employment offices report that they have received numerous inquiries from women who wish harvest work. Most of the women prefer employment as cooks, although several have announced they have no objections to doing manual work, is desired.

It is virtually a certainty that the state of Kansas will have a surplus of harvest hands for the crop this year.

RAIN DOES NOT SPOIL SOCIAL AT SALEM CHURCH

Bad weather did not keep the crowd away from Salem Church last night, according to the party of Maryville people who took the Chamber of Commerce film and comedy to the social gathering there. About two hundred were present.

Those who went from Maryville were Mr. and Mrs. R. P. Hosmer, Mr. and Mrs. Arch Frank, Paul Kuchs, Dr. W. W. Turner, Ralph Marcell, and Ray O'Grady.

Repairs are being made on the fire escape at the Hotel Linville this morning. Manager Walter Nixson said, "We want our guests to feel perfectly safe. In fact our motto is 'Safety First.'"

Russell Young and wife of Quitman were shopping in Maryville yesterday.

J. L. Mayer and sister, Margaret, from Barnard were in Maryville yesterday on business.

Wool! Wool! Wool!

We are in the market for your clip of wool and will pay top prices.

NOW A LITTLE PREACHMENT ABOUT THE WOOL BUSINESS:

Last year we offered the growers from forty to fifty-five cents per pound for their clip. Some of them sold, some pooled their wool—who was ahead? Some stored their wool with us and advised us to sell at our judgment. We sold this wool the day after the pool sold and gave 3c per pound more than was obtained by the pool. A great American once said: "What a man knows is a club to himself; that he don't is a meat ax to the other man." We know the wool business.

FARMERS DECIDE ON FAIR WAGES FOR HARVEST LABOR

Pike Countians Say $2 to $2.50 a Day and "Keep" Is About Right.

Bowling Green, Mo., June 9.—Following a careful survey of the harvest labor situation in Eastern Missouri, farmers of Pike county have decided that $2 to $2.50 a day and "keep" is about the right price to pay for help. In reporting this action, the county agent says: "Of course, this is not as much as was paid last year or in 1919 but, due to the fact that farm products have dropped from one-half to two-thirds in value, it is believed to be a fair wage.

Reports from agents of the U. S. Bureau of Labor indicate that there is a plentiful of farm labor now and that there probably will be plenty of men to supply all of the demand. Farmers who want extra help now or expect to want help later, when the harvest is on, should communicate with their county agent and he in turn will communicate either with the state board of agriculture, which is operating an employment service or with the state and federal departments of labor.

Snakes Make Good Pets.

Columbia, Mo., June 9.—Whether you know it or not the snake is the best friend you have. They make good pets and not many of the well-known varieties are poisonous. According to members of the biology department of the University of Missouri, the black snake, the grass snake, the garter snake, the pilot snake, the ring snake, the water snake, all of which are to be found in Missouri, are perfectly harmless and should be treated with respect rather than fear. Such snakes as these are fine to keep in the cellar to catch mice. They can easily get into the mouse hole after the mouse and are far better mouse-traps than even is faithful old Tabby herself.

Two Weeks' Use or Fifty-Two.

"Speaking of the first and last cost of labor-saving equipment," says E. W. Lehmann with the home convenience truck of the Missouri Agricultural Extension Service, "What would happen if some farm wife should leave her sewing machine out in the rain for just one night. Unthinkable of course! Farm women have very little labor-saving equipment yet they make that little almost a lifetime. Considering this and a number of other things, isn't it possible that many a farm family could well afford a year-round household water supply system instead of a new grain binder to be used only two weeks and left out-doors like its predecessor for the remainder of the year?

Treasury Still Has Surplus.

Jefferson City, Mo., June 9.—There still is a large amount of money in the state treasury, according to a report filed by Treasurer Thompson with Governor Hyde.

April 30 showed a balance of $19,254,687.48, with receipts for the month totaling $2,912,523.18 and disbursements of $3,623,388.75 leaving a grand balance on May 31 of $18,543,820.91.

Boonville Extends Waterworks.

Booneville, Mo., June 9.—Work on the extension of Boonville's waterwork system in the southern part of the city is in full swing. More than $30,000 will be spent on the system.

Mr. and Mrs. B. K. Lewis and son, B. K., Jr. and daughter, Helen Claire, from Harmony were in town yesterday.

15th Anniversary Celebration

FIFTEEN YEARS. TWENTY-FOUR HUSTLING STORES

From the beginning a different type or organization—ever looking forward to finger service, newer methods of distribution, and a thorough knowledge of your needs. For fifteen years we have felt and known that the finest service a store could possibly render to a community would be to

Sells the Highest Quality Merchandise at Lower Prices

We have done that. It has built for us a chain of stores, with tremendous resources for gathering merchandise. This hasn't just happened. Someone had a vision fifteen years ago, and put years of strength back of it to shape things toward the ideal. He saw that—

Merchandise must be bought direct from manufacturers in large quantities to eliminate wholesaler's costs.

Selling at a smaller margin of profit would increase sales and bring more customers.

Delivery costs could be eliminated by the "Cash and Carry plan.

Cheerful refunding of money for unsatisfactory purchases would make satisfied customers and increased business.

Sales must be made for cash to eliminate bad debts.

Selling to everybody at ONE PRICE would make friends and keep them.

For fifteen years that vision has dominated this organization. It has made us friends. Now we want to celebrate our fifteenth birthday, and it is only fitting that we do so by presenting in a three weeks ANNIVERSARY SALE opportunity for economy at a time when the word means so much.

Come See Us on Our Birthday--Make "Economy Week" a Time to Save on Everything the Family Needs

Three Killed in Revolver Duel.

Toledo, June 9.—After two policemen were shot to death, a police riot squad today shot it out with a man named Kelly, who had barricaded himself in his room. Scores of shots were exchanged between the parties. Kelly resisted arrest when the police called after Kelly, who failed to pay his room rent. After a long bombardment the police entered the house shortly before noon and found the dead body of Kelly.

JUST GOT OVER A COLD?

Look out for kidney troubles and backache. Colds overtax the kidneys and often leave them weak. For weak kidneys—well, read what a Maryville woman says:

Mrs. M. Bratcher, 1322 E. Second St., says: "Several years ago while recovering from a bad cold a terrible dull aching pain settled in the small of my back and bothered me constantly. As the days went by my back grew very lame and sore and these pains darted around to my hips. I suffered severely and could hardly do my house work. I decided to try Doan's Kidney Pills which I had heard so much about. I purchased a box at Gaugh & Evans Drug Store. The first box produced such good results that I continued using them. After I had used three boxes of Doan's the pains left me and I was completely cured. I highly recommend Doan's Kidney Pills to anyone afflicted with a similar trouble."

MARKET REPORTS SENT BY WIRELESS

FARM BUREAUS UNDERTAKE NEW SERVICE.

MAY BE INSTALLED HERE

Amateur Radio Operator Could Receive Dispatches, Which Come From Principal Markets.

Columbia, Mo., June 9.—Wireless market reports now are being distributed daily by the Federal Bureau of Standards, the Department of Agriculture and the Postoffice Department, cooperating. This service is exactly what farmers of Missouri have been in need of for years and it is expected that within a few more months every member of the Missouri Farm Bureau Federation will be receiving the reports daily.

The reports for Missouri are sent from Omaha and St. Louis, the daily schedule being:

From Omaha

11:15 a. m.—Omaha livestock report.

11:45 a. m.—Kansas City livestock report.

2:15 p. m.—Grain and potato reports from Chicago, Kansas City, Minneapolis, etc.

5:00 p. m.—Radio marketgram covering national markets on livestock, fruit, vegetables, grain, hay, feed, seed, etc.

From St. Louis

11:00 a. m.—National stock yards report.

11:30 a. m.—Chicago livestock report.

2:00 p. m.—Chicago grain and potato report.

7:00 p. m.—General radio marketgram.

This service is without charge to anyone that is qualified to receive it. The equipment to handle it costs $75 to $100 and the Bureau of Standards at Washington is co-operating in the work by testing out all apparatus that is on the market for this.

Chester H. Gray, president of the Missouri Farm Bureau Federation has suggested that all county farm bureaus either equip themselves to pick up these market radiagrams or make arrangements with some amateur operator to receive the reports.

There are more than 2,000 amateur operators in the country who are qualified to receive the reports, many of them being licensed by the government. Mr. Gray recommends that if the amateur or amateurs are employed that the county farm bureaus make it "worth his while" to receive the messages regularly and relay them to Farm Bureau members. It is suggested that County Farm Bureaus, local newspapers, and others could co-operate in this work and divide the expense.

After the reports are received by the county farm bureaus some method must be devised for relaying them to farmers, either by telephone, with postal card, or in some other manner. It is believed that most farmers would gladly pay for printed postals on which the reports could be sent to them each morning following their receipt.

The headquarters office of the M. F. B. F. has the names and addresses of 44 licensed operators in Missouri and will furish them to anyone interested if some local amateur cannot be found to do the work if it is instituted.

"It would be a good thing for the farmers of the county if the wireless reports could be received here daily," said R. A. Kinnaird, county farm agent, "but we have no funds to employ a wireless operator, and I don't know of anyone who would like to do the work for fun. If there was some boy with a wireless outfit who wanted to practice, we might be able to get the reports."

Card of Thanks.

The Life Story of Georges Carpentier

By James J. Corbett.

Former World's Heavyweight Champion.

(Written expressly for International News Service).

(Copyright, 1921, by International News Service).

Cleveland, O., June 9.—The bout between Georges Carpentier and Gunboat Smith in London, just before the outbreak of the world war has been the subject of much argument.

Carpentier won this bout on a foul in the sixth round, getting the award from Eugene Corri, one of the world's greatest referees. Smith and his hurdlers made loud protest over the decision and after the contest expert opinion at the ringside varied regarding the fairness of it. Be that as it may. Carpentier was declared the winner.

Had this bout not been interrupted by a foul, there is no telling how it might have ended, though Carpentier was in excellent shape and apparently was winning when the end came. In the fourth round Georges fainted Smith with his left and sent his right crashing against the Cunner's jaw. Down went Smith like a log and he was still down when the bell saved him. In the fifth Smith revived sufficiently to come back strong at the Frenchman but Georges was all confidence and from all accounts, simply toyed with his man.

In the sixth round a queer thing happened. Carpentier, according to his version, missed a heavy right and fell to his knees. Before he could rise, he (Smith), who had started a blow, hit him in the back of the head with such force that his nose was smashed on the ring floor. Corri then gave the decision to Carpentier.

The important incident in this fight however, was Carpentier's knock down of Smith in the fourth round. At that Smith was a dangerous man for anybody to fight. He was rugged and he could cock. One of his swings, landing squarely, would have put any man to sleep. His main fault was that he was very slow, yet his slowness did not effect the dangerous quality of his punch in the least.

Smith outweighed Carpentier by many pounds, yet Georges dropped him for a long count with one lightning-like punch. Any boxer who can do this can hit and Georges, as I have said before, has plenty of poundage behind his punches. He is big enough to fight anybody.

Carpentier's most recent bouts with Beckett and Levinsky are of little or no import except that he demonstrated on these two occasions that he apparently lost none of his punching power during his period of service in the world war, and on July 2 Dempsey will face Georges at his best.

FIFTY YEARS AGO TODAY

(Taken from the Nodaway Democrat of Wednesday, June 7, 1871.)

On the 1st inst., Ed Moss opened his soda fountain free for one day, in honor of the opening season, and between one and two thousand glasses of the most delicious soda water was dispensed gratuisously to the thirsty.

Horse thieves are getting so plenty in the surround counties that we would advise our friends to keep an eye on their stock, as loss and trouble maybe saved thereby.

As will be seen by reference to the proceedings of the Town Board, they have levied a poll tax of three dollars on every able bodied man in Maryville for the year 1871.

What is to be done on the glorious Fourth of July? As yet nothing has been said about celebrating the birthday of American's Independence. Can it be that it has lost its charms, and that the lesson learned in our youth are to be forgotten? We say no! If nothing better can be done, let us get squirt guns and go to the One Hundred and Two and shoot a mark. The day must not be forgotten.

The superintendent, teachers and patrons of Sabbath Schools of Nodaway county are invited to meet in convention at the Presbyterian church in Maryville on Friday and Saturday evenings, June 9th and 10th and on the Sabbath following, at the hours designated in the programme below.

MARINE AIR PILOT KILLED WHEN PLANE FALLS INTO RIVER

Washington, June 9. — A United States marine corps airplane fell into the Potomac river off Colonial Beach, Va., today. Lieut. W. Brown, pilot, was killed, the navy department was advised. The sergeant who was in the plane was rescued.

FARM LEGISLATION MAKING PROGRESS

FARM LOAN LAW PROBABLY WILL BE AMENDED.

OTHER MEASURES PENDING

Would Repeal Guarantee Clause in Each—Cummins Railroad Bill—Nitrate Plant Has Support.

Washington, D. C., June 9.—Farmer legislation in Congress is proceeding favorably, according to Chester H. Gray, president of the Missouri Farm Bureau Federation, and member of the legislative committee of the American Farm Bureau Federation. Mr. Gray reports that at a group meeting of members of the House block of friends of agriculture, held May 31, the situation was carefully canvassed and progress of pending measures reported.

A battery of three bills affecting the farm loan law all have a good chance of becoming laws. One of them will increase the capital stock of the corporation from six to fifty millions of dollars. Another bill would raise the rate of interest from 5 to 5½ per cent and make the paper more desirable while the third would permit farmers to obtain loans direct from the government if there were no association in their county.

A measure to repeal the guarantee clause of the Esch-Cummins railroad act is receiving the support of the A. F. B. F. and the agricultural group. A law clearly defining the powers of the interstate Commerce Commission and the various state commission of a similar nature also probably will be passed.

The Truth in Fabrics bill is progressing very favorably in the Senate but is meeting with opposition in the House committee to which it was referred. The legislative committee of the A. F. B. F. expects to get it reported out soon, however.

The Muscle Shoals nitrate plant proposition is attracting a great deal of attention and has received the promise of support not only of the agricultural group but of several cabinet members as well. Numerous conferences on this matter have been held and Mr. Gray reports the situation as decidedly healthy. The report of the committee which visited Muscle Shoals, of which Mr. Gray was a member, is now in the hands of the printers and will be ready for distribution within a few days.

Mr. Gray expects to return to Missouri in a few days, after having spent several weeks here preparing the Muscle Shoals report, helping to organize the agricultural blocks of Senators and Representatives and aiding generally with the legislative program of the A. F. B. F.

MISSOURI STATE FAIR HAS MORE THAN DOUBLED PREMIUMS

Sedalia, Mo., June 9.—Premiums at the Missouri Centennial Exposition and State Fair will be more than doubled this year, it was announced today. The list will total $93,220. The exposition will be held here August 8 to 20. Three new departments have been added to the fair. They are the historical exhibits, the baby health contest and the Chamber of Commerce special premiums.

The fair management recently purchased fifteen acres of ground to provide a "white city." Thousands of visitors will be accommodated on this camping site, tents being available for those who do not bring their own. The camp city will be equipped with all modern convenience, including electric lights, water and provision stores.

Small Haul Disgusts Burglars.

Popular Bluff, Mo., June 9.—Burglars entered a store here a few days ago, rifled the cash drawer and secured a small amount of money.

A heavily laden letter was received by the proprietor two days later. It said:

"Here are the 22 pennies we took from your cash register. Have more in the drawer the next time. Jesse James."

Row in Army Air Service.

Washington, June 9.—Major General Mencher, chief of the army air service, asks Secretary of War Weeks for the removal of Brigadier General William Mitchell, assistant chief of the army air service, it was learned today. The request for the removal of Mitchell comes as a result of friction in the air service over the activity of Mitchell for the United States air service and in a controversy relative to the value of airplanes and battleships. Weeks stated today he had taken no action in the matter as yet, but that he intended to remove the friction.

Mr. and Mrs. Ben Jones and son, John, were in town yesterday.
